1. A munition depot belonging to the Hungarian Army is located about two kilo-  
meters south of Törökbálint near the road to Erd. This depot belongs to the  
Budaörs airfield, and is guarded by Air Force units. It was enlarged in 1950.
2. The depot consists of two parts, one underground and one above ground. The  
section which is above ground has 11 permanent buildings, of brick construction,  
one storey high. The underground section is a horseshoe-shaped tunnel with  
two exits and some 30 storerooms opening on a branch tunnel; a rail spur with  
a loading ramp is available at one of the exits. Both sections are surrounded  
by high fences with barbed wire at the top.
3. Late in November 1950 large quantities of ammunition (allegedly about 110 car-  
loads) were shipped from Törökbálint to Pécs, Villany (B 40), and Sarbogard.  
This ammunition all came from the above-ground section of the depot.
